

REVISIONS CONTAINED IN THIS DOCUMENT

This document has been updated to incorporate relevant changes resulting from OCSE Release 03-01 Minor implemented on August 22, 2003 and the modification to the Validation Report to include a message for states when a processing error has occurred. In addition, changes have been made to update terminology, ensure consistency, and make minor corrections to content and formatting.

Note: The issuance of this document does not require any new development efforts by state CSE resources.

Detailed information related to OCSE Release Methodology and specific releases can be found at: <http://www.acf.hhs.gov/programs/cse/newhire/library/relmgnt/relmgnt.htm>.

Descriptions of the revisions are specified in the chart below.

DESCRIPTION OF REVISIONS			
Release	Implementation Date	Change	Description
03-01	August 2003	Case-Closure Reason Codes	Add new Reason codes GSC4D, GSC5B, GSC13, and GSC14 for MSC transactions to allow the transmission of current case-closure criteria found in 45CFR303.11 (b) and (c) using standardized CSENet 2000 transactions.
N/A	N/A	Use the Validation Report to provide notification to states when transactions are not processed.	Add a message to the end of the Validation Report to inform the state that a transaction file did not complete processing within the allotted time frame or was partially processed.

The following Summary of Changes chart documents the sections, charts, and pages of the IGD specifically affected by each change. For easy recognition, changes appear in ***bold italic*** in the affected sections.
